

With HEITS as your painting contractor you can rest easy. Our experienced staff of professionals will ensure that your project is completed to your exact specifications and in your time frame. Using only quality materials and the finest workmanship, our expert team manages all project details, allowing you the freedom to concentrate on your core business.

Our specialty is large facilities, where for more than ten years we have set the standard for superior finish work in both maintenance and new construction. With our extensive product knowledge and experience afforded by the thousands of quality projects we have completed, HEITS Painting Division maintains strict adherence to all industry safety standards, FDA regulations, and engineering or architectural specifications.

New construction or ongoing maintenance - small or large, our painting crews do it best. In business since the early 1980's, HEITS typically contracts for jobs from \$1000 to \$10 million. In the course of a single year, our painting crews will complete more than 500 projects and apply over 200,000 gallons of paint or wall covering - always delivering cost-efficient and on-time service.

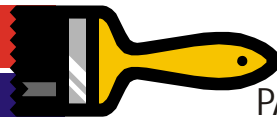

And since HEITS is your single source for any building maintenance our focus is on building long-term partnerships with our customers. We listen to your concerns and offer innovative and efficient solutions.

Working with your painting contractor shouldn't be a headache - rest easy with HEITS Building Services.

Sherwin-Williams

RESIDENTIAL SERVICES

Whether your project requires painting a single residential unit, or an entire sub-division, HEITS Painting Division has the experience and work force to complete the job. To ensure superior quality for our clients, we only use the best available products, from leading manufacturers such as Sherwin-Williams, ICI Dulux and Benjamin Moore.

We don't leave our clients with a mess to clean up when we have finished painting, rather our crew makes certain the area is left in a clean and orderly state. Before we consider a project finished, one of our representatives will do a final walk through with the building manager of the residences to make sure our work has met or exceeded expectations.

Our interior and exterior painting services for residential projects include:

- New Home Construction
- Custom Painting of Residential Units
- Periodic & Touch-up Maintenance
- High-End Coatings & Finishes
- Mechanized Units

We have completed many types of residential projects for various customers over the years including:

- Apartment Buildings
- Sub Divisions
- Condos and Townhomes
- Single and Multi Family Homes

COMMERCIAL SERVICES

At HEITS we provide a number of quality services that are formulated for asset preservation and maintenance. While the tenants can appreciate the ease of maintenance, the building managers can appreciate the durable, economical, and aesthetically pleasing products that HEITS painting division utilizes.

Our workmanship in commercial environments provides minimal interference with normal operations and tidiness throughout the progression of the project. Our crews are available and operating on varying schedules to accommodate the needs of our customers, often during weekends and evening shifts.

Our experience with commercial buildings and apartment complexes includes painting hallways, stairwells, fire escapes, Commercial Wall Covering, electrostatic refinishing of office furniture. Our services along with interior painting include exterior painting and above grade waterproofing. HEITS painting crews have painted millions of square feet all over the Tri-state area.

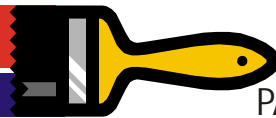

Where required we use OSHA approved equipment, low odor paints and environmentally friendly products. We have painted and decorated all types of commercial establishment including hotels, restaurants, office complexes, transportation centers, garages and retail stores.

At HEITS our painting crews have experience with a variety of commercial space decoration including new construction.

- Hotels and Restaurants
- Offices and Building complexes
- Theaters and Cinemas
- Hospitals, Clinics and Medical Facilities
- Gas Stations, Auto Workshops
- Apartment Building and Housing Subdivisions
- Banks, Public Areas and Municipal Buildings

INDUSTRIAL SERVICES

Industrial environments require corrosion-resistant products that provide maximum performance. From factories and assembly plants to warehouses, HEITS has dealt with the demand for increased specifications in the industrial environment.

HEITS painting project managers approach each project with the highest standard of service to deliver durable, cost efficient products and services.

Our industrial painting crews specialize in the application of protective coatings and linings for industry, with experienced workmen qualified to install a variety of protective coatings to meet our customers needs. We specialize in the removal of lead-based paints from tanks, structural steel, silos, or wherever removal is required and will meet all OSHA and local EPA requirements. We also coat concrete surfaces for chemical resistance and cleanliness. HEITS completes building restoration projects including brick and block replacement, tuck-pointing, epoxy injection, and waterproofing and painting.

HEITS maintains a strong commitment to quality and safety by adhering to the most stringent project requirements.

Our industrial service capabilities for manufacturing, pharmaceutical, municipal and automotive customers include:

- Structural Steel
Complex steel structures
- Corrugated Sheeting
Appropriate surface preparation on interior and exterior sheeting applications
- Steel Structures
Towers, tanks, piping and pipe racks, columns
